Corporate Membership

The corporate membership program has been designed by EANGUS to recognize special National Guard members and their contributions toward protecting American lives and property.

EANGUS believes that the corporate membership program will help recognize these special individuals and their efforts. Over 450,000 men and women sacrifice countless days, months and years away from their homes and families to serve America when needed by the President and to help in time of natural disaster.

Because EANGUS is a non-profit organization, we are asking corporations across America to show their appreciation by becoming a member of the EANGUS corporate sponsorship program.

Your Membership Will Help:

- ✓ Recognize the contributions of the men and women of the National Guard to their community, state and country with special awards and certificates to be presented at state and national membership conferences.
- ✓ Bring about public awareness of the National Guard, its members and its importance to the civilian community.
- ✓ Stimulate and maintain public awareness of the responsibilities of each American citizen.
- ✓ Promote patriotism and pride in America by way of posters and pamphlets.
